

MediaBox 4K

See & Share. Everything. With Android TV.

JEPSSSEN
everything is possible

The most advanced solution available today. Automation included.

mediabox4K
DIGITAL TV • MULTIMEDIA • INTERNET

The global digital system opened to all your needs

In the sign of unitary and universal Jepssen technology, the new MediaBox 4K M8 enriches the range of products "Digital Smart Share" for the intelligent sharing of all the equipments and digital sources and also for interoperability between different operating systems, Windows 11 and Android included. It satisfies all those who want to take advantage of the endless applications and of a platform, equipped with a powerful and fast Quad-Core processor, based on a dedicated and advanced version of Android TV operating system. The total modularity and extensibility and interactivity within a local or remote network, ensures the implementation of a system perfectly suited to the personal and family needs.

Android & Internet on TV

It can be directly connected to the TV or to the projector and it provides to access to countless apps (every day they add new ones) created for Android TV operating system. Installing and launching the different apps is very simple and intuitive and surfing Internet, including the receipt of Web TV and Radio broadcasters, is similar to what can be done from a computer, a tablet PC or a smart phone: the difference is that everything can be done comfortably from your TV! MediaBox 4K is a necessary product for the IPTV and its apps (eg: YouTube, Netflix, Prime Video, DAZN, Discovery+, Chili, etc.) for the reception of the Tv channels and of the multimedia contents available on Internet or local net ensuring, thanks to the built-in on board "Fluid-Play" function, sight without "freeze" also for the Full HD and Ultra HD transmissions.

Unlimited Digital TV & Radio channels

With 3 integrated tuner, digital satellite (DVB-S2 HEVC 10bit, DVB-S), digital terrestrial (DVB-T2 HEVC 10bit, DVB-T HD, DVB-T) and digital cable (DVB-C), it stores thousands of TV and Radio, including the new high definition ones (Full HD and Ultra HD). It has CAS slots for multistandard smart card and Teletext with subtitles. Through the internal scaler and the HDMI digital output it really improves the sight of the traditional broadcasting stations because it increases the resolution, becoming the necessary linking for whom has a Ultra HD television set or Ultra HD videoprojector.

Direct access, free choice

Using the Direct Access USB 3.0 and USB 2.0 ports you can record on an external USB hard disk or USB Pen. All the recordings can be transferred to a computer, edited using the most popular software to eliminate the advertising or the useless sequences and burned to CD / DVD / BluRay. All the recorded programs can be seen anytime, without any problems of time or use.

Complete, easy and fast

The management of all the functions is extremely fast, simple and intuitive, thanks to the multi languages OSD (On Screen Display) menu and the EPG (Electronic Programs Guide). Switching from one channel to another is practically instantaneous.

Multitasking

It includes Task Manager function that allows the multiple running of more programs, allowing quick and easy switching between running applications.

Multimedia Player 4K HDR

It fully supports the high definition Ultra HD in all the most popular formats (Mkv, H.264, H.265, HDR, HLG HDR, WMV9, M2TS, Avi, MPEG1/2/4, DivX, XviD, TP, TS, etc.), it allows through the internal scaler to increase the resolution of the standard definition (SD) video and photos (ex: DVD and DivX, etc.) up to 4096x2160.

Game Station 4K 3D On-Site & On-Line

It's extremely suitable to be use with the most advanced and spectacular games that require high performance and resolution Ultra HD, including online multiplayer, and it supports all USB and wireless game controllers (eg: Joystick, Game Pad, Air).

Mail & Social

Ideal for e-mail management, as well as to the access to the various social networks (eg Facebook, X, Instagram) or instant messaging (eg Skype, WhatsApp).

Wireless Display, Android on TV

It embeds Miracast technology for transmitting wireless (WiFi Direct) on a high-definition TV (Ultra HD) of a remote devices screen's contents (screen mirroring), such as a smartphone, a tablet, etc. The device's screen will appear in real time on your TV, allowing you to manage all the functions and the installed various applications turning it into a remote control or a wireless game pad.

A net for everything

It interacts with all products connected directly via the 1 GigaBit/1000 Mbps Lan port or wirelessly with the integrated 5G WiFi 802.11ac Dual Mode 2.4/5.8Ghz and Bluetooth 4.1 modules.

Always ready

The management of all functions can be done via the remote control with "mouse" function or, for surfing Internet, using the 2,4GHz WiFi wireless multimedia keyboard with touch mouse pad (till a distance of 10 meters 360°).

Highly faithful

Equipped with digital HD 6 channels audio processor and digital optical S/PDIF output fully satisfy also the wishes of the most exigent audiophiles.

Easy to install

The extremely compact size (12.4x3.6x11.9cm) facilitates the installation in any style solution (especially in case of very narrow spaces or on boats and campers).

Compatible with any equipment

It fits to any installation's need being fully compatible with any fixed or motorized (DiSEqC, USALS) equipment and those with single or centralized digital terrestrial.

Upgradeable firmware, a product that is new

The firmware setting's update is easy and fast, because it is done through the USB 3.0 port and, so, avoiding the connection to a computer.

MEDIABOX 4K

- Android TV OS & Apps
- CPU & GPU Quad Core 2.0GHz
- GPU Multi-Core 64bit Ultra HD 4K 3D
- Ultra HD H.265/HEVC (4096x2160)
- Internet & Web TV 4K (IPTV, YouTube, internet, e-mail, ecc.)
- Digital Satellite Receiver 4K (DVB-S2 HEVC 10bit, DVB-S) for digital TV and Radio channels in clear and scrambled
- Digital Terrestrial Receiver 4K (DVB-T2 HEVC 10bit, DVB-T HD, DVB-T) for digital TV and Radio channels in clear and scrambled
- Digital Cable Receiver (DVB-C) for TV and Radio channels
- unlimited TV & Radio channels
- quick channel selection and switching time
- CAS for Smart Card
- Personal Video Recorder 4K, supports USB hard disks, USB Pen Drive and network devices (NAS, etc.)
- Timer with Sleep function and events programming (single, daily, weekly)
- Teletext
- Parental Lock facility channel and program event
- Instant messaging (SMS, MMS, etc.)
- Media Player 4K HEVC with managing media files from hard disk or USB pen
- E-Book Reader compatible with all popular digital formats of books, magazines and newspapers
- Photo Album & Editor, in order to record and to catalogue photos and images in the various existing formats
- Game Station 4K 3D
- Network GigaBit Lan 1000 Mbps by cable for connection to the local network or Internet
- Wireless Display (Miracast technology) for the Screen Mirroring function of a remote device (PAN, tablets, smartphones, etc.) on an Ultra HD TV
- 5G WiFi 802.11ac Dual Mode 2.4/5.8Ghz
- Bluetooth 4.1
- supports all devices with DLNA
- supports the formats NTFS, FAT32 and EXT3
- multi languages colors graphic OSD menu, complete of EPG (Electronic Guide of the Programs)
- Multitasking for instant switching between running applications
- Micro-SD Card Reader, to store in the memory cards audio, video, data and installing software and apps
- 1xUSB 3.0, 1xUSB 2.0 for the direct linking to external digital devices, USB Pen Drive, USB hard disk
- HDMI 2.1 output
- Optical S/PDIF output
- 1 LNB input (F-Type)
- input antenna digital terrestrial TV
- input for external power supply 12V
- external Power Supply 12V
- USB 2.0 port for the update of settings, firmware, channel's list, ect.
- DiSEqC Control 1.0, 1.2 & USALS supported
- black piano color
- dimension 12.4 x 3.6 x 11.9 cm
- Remote Control with "mouse" and "microphone" function
